Forecast for Saturday 11 Nov 2023

Weather: Mostly dry but feeling cold overnight with mist and fog patches forming in sheltered areas. Mist clearing early to leave a bright and sunny day, mainly dry throughout. Clouding over during the evening with some mist, light rain or drizzle later on Saturday night.

Chance of cloud-free hill tops above 600m: 70% rising to 95%, as mist clears, lowering 70% later Saturday evening.

Low cloud and visibility: Poor visibility at low level in any mist and fog. Patchy or scattered early cloud may affect hills near the summits early in the day, especially in the west. By late morning very little low cloud is expected with far reaching views likely throughout the day. Scattered cloud will lower over the summits later in the evening with visibility becoming moderate or poor in drizzle or light rain.
